ABOUT

ZEG DESIGN MANUFACTURING

Inspired by the name, “livingstore” designs and manufactures your living spaces with the utmost care and attention to detail. Our aim is creating more comfortable living spaces.

Since 2011, we are grateful to offer you a rich variety of our modern designs from interior and exterior furniture to lighting products with affordable prices.

We’re delightful to provide unique and dynamic designs, in-line with global trends by focusing not only the present requirements but the future needs of our clients.

We’re proud to have our footprint in Holland, Belgium, Italy, Germany, and UAE which encourages us to discover more territories and reach more people with our design perspective.

factory

in house manufacturing

Our factory is located in the capitol city of Ankara in Turkey.
The facility is built on 3.000 m² land area.

All aspects of production is handled in house, from CNC cut to spray paint is done within the factory, ensuring a perfect finish on all details.

logistics

Choosing Ankara for our factory investment was not a coincidence.

Ankara has the best craftsman in the hall country, skilled at furniture manufacturing. Ankara is also very close to the port of İzmit on the coast of Marmara Sea.

From İzmit there is a direct sea freight route to Qatar and there are 2 shipments every week. The ETA is only 18 days.

design

Interior and exterior architectural designs are tailor made to the clients desires and needs to the highest quality.

All necessary documents for the contractor to build the Project will be prepared and consultancy services can be provided thru out the Project.

A diverse portfolio includes interior design, restoration, project management and execution that demonstrates that the only limits on human achievement are those that we place on ourselves.

fit-out

Our company provides high standard solutions focused on architectural design, restoration, project management and fit-outs construction.

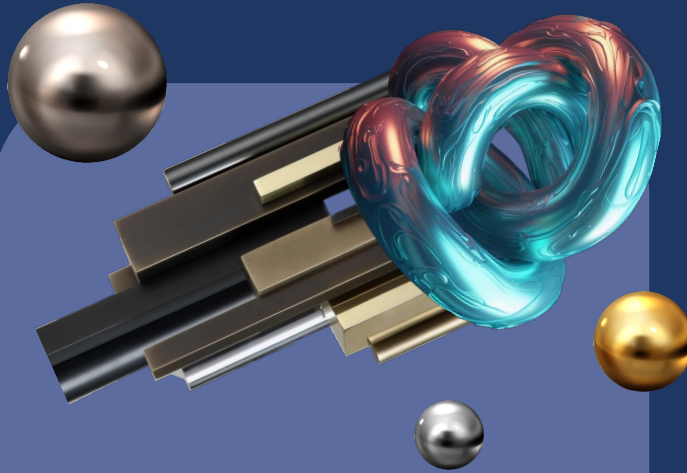

Our manufacturing and production facilities are equipped with state of the art and modern technology driven machinery to enable multi-run production of quality finishes.

wood

We procure the best kiln dried wood slats and manufacture our frames with care.

Sturdy frames made of the best beech and hornbeam trees creates the base for many of our furnitures.

Our Factory is capable of manufacturing furniture or other metal works from any metal required.

We produce steel, chrome, brass furniture and light fittings.

All metal works are meticulously checked for weld imperfections, grinded and powder coated to the desired color and protective lining.

metal

fabric

To put forward the beauty of the furniture, fabric selection is essential. We work side by side with our clients to find the best variant.

The most suitable foam DNS is selected according to the purpose of the furniture as well.

COMPLETED CHALLENGES

We had the privilege to work with some of the industry leaders in hospitality sector.

Each project was a challenge, pushing us to become even better each time.

Following are some of the many major companies which we had the pleasure of delivering fit out and loose furnitures to;
